3 June 2016, Jakarta – PT Multi Bintang Indonesia Tbk (Multi Bintang) held a Public Expose following its Annual Shareholder Meeting to announce financial results for financial year ended 31 December 2015 and 2016 Business Outlook.

FY2015 (January 2015 – December 2015) revenue and net profit decline was mainly impacted by unfavorable economic conditions and ministerial regulation restricting the sales of beer in minimarkets. This severely impacted the availability of beer for many consumers of legal drinking age. We continue to be in dialogue with the Government to provide more effective solutions to address concerns of underage consumption.

Lower FY2015 beer volumes were partly compensated by improved revenue management, higher sales volumes of our non-alcoholic beverage products, cost efficiencies and through innovation.

Multi Bintang remains to put on hold its brewery expansion investment plan of circa IDR 635 billion, pending certainty of law.

The FY 2015 net profit was also impacted by the following one time charge of exceptional item. Multi Bintang received penalties for administrative errors (for period November 2010 – May 2014) from Directorate General of Customs and Excise with final amount of Rp 221 billion. These administrative errors do not relate to short payment of excise taxes, of which Multi Bintang has always paid in full and on time. Multi Bintang has submitted an Appeal Letter, of which the result is still pending. Management is confident that the Company's position is strong and it is probable that the Company will recover the amount.

Underpinned by these factors, Operating Profit (*after* the impact of one time charge of exceptional item) declined by 37% to Rp 720 billion. Likewise, total FY2015 Net Profit (*after* the impact of one time charge of exceptional item) declined by 37% from Rp 795 billion to Rp 497 billion.

Forward Looking: 85 Years of Brewing Enjoyment

This year, Multi Bintang will celebrate its 85th anniversary with a series of new product innovations.

In December 2015, Multi Bintang launched a new variant of Bintang Radler, Grapefruit 2% (in addition to Bintang Radler Lemon 2%, which was launched in 2014). We have launched in February 2016 our 3rd Bintang Radler variant, expanding Radler into the 0.0% alcohol category free alcohol.

In Q 2016 we have relaunched our Green Sands, with new packaging, new flavours and a new brand identity. In addition we have recently launched our 4th brand, a fine soda named Fayrouz.

Our Sustainability /CSR Practice

Sustainability is an important business priority and we place this at the heart of our business to create value for our company, society and environment. As a business that was established in Indonesia and grows together with the country in the past 85 years, Multi Bintang is proud to say that Multi Bintang have come a long way to be a leading and responsible beverage company in Indonesia.

Our sustainability strategy, **Brewing a Better World** is well integrated in different parts of our operations: from sourcing, production/supply chain, logistics, management of our people and environment, our contribution and support to the local communities as well as responsible sales and marketing practice of our products.

We also consistently advocate responsible consumption of our products to our loyal consumers. Since 2012, the company has launched 21+ Campaign where we have worked together with a large number of minimart operators to train their staff to make sure they do not sell to people below the legal drinking age (21+) and strictly apply ID check procedure. Since 2012, approximately 1000 outlets and 15000 staff participated in the program. We continued to expand this training program by partnering with our industry peers - the Indonesia's Brewers Association (GIMMI) and large chain retailers (supermarkets & hypermarkets).

Moreover, we also expanded further our responsible serving training in the on-trade outlets targeting hotel, restaurant and café staffers making sure they only sell and serve our products in a responsible manner.
